## Test Lab

### Virtual Device Tests

No-cost up to 60 min/day  
Then \$1/device/hour

### Physical Device Tests

No-cost up to 30 min/day  
Then \$5/device/hour

### Android Device Streaming

(<https://developer.android.com/studio/run/android-device-streaming?authuser=0>)

30 no-cost minutes per project, per month  
15 cents for each additional minute

### Firebase AI Logic client SDKs

### Google Cloud

### BigQuery

### Other IaaS

### Gemini in Firebase

Gemini in Firebase is no-cost for individuals or groups who are not using Google Workspace.

Google Workspace users are required to have a valid Gemini Code Assist subscription to access Gemini in Firebase in the Firebase console.

See [Gemini in Firebase pricing](#)

(<https://firebase.google.com/docs/gemini-in-firebase?authuser=0#pricing>) and [Purchase a Gemini Code Assist subscription](#)

(<https://cloud.google.com/gemini/docs/discover/set-up-gemini?authuser=0#purchase-subscription>) for more information.

No-cost for three workspaces

Google Developer Program (<https://developers.google.com/program?authuser=0>) members can create:

- Standard (no-cost) ([https://developers.google.com/profile/u/\\_/plans-and-pricing?authuser=0](https://developers.google.com/profile/u/_/plans-and-pricing?authuser=0)): 10 workspaces
- Premium ([https://developers.google.com/profile/u/\\_/plans-and-pricing?authuser=0](https://developers.google.com/profile/u/_/plans-and-pricing?authuser=0)): 30 workspaces and an increased Gemini quota for the App Prototyping agent

Note: Some integrations (like Firebase App Hosting) require a billing account. Learn more. (<https://firebase.google.com/docs/studio?authuser=0#pricing>)

**Get started**  
([https://console.firebaseio.google.com/project/\\_/overview?purchaseBillingPlan=metered&authuser=0](https://console.firebaseio.google.com/project/_/overview?purchaseBillingPlan=metered&authuser=0))

\* No-cost usage on Blaze plan is calculated daily. Details differ slightly for Cloud Functions, Firebase ML, Phone Auth, and Test Lab.

For more info, see the FAQs (<https://firebase.google.com/support/faq?authuser=0#pricing>) or view our documentation (<https://firebase.google.com/docs/projects/billing/firebase-pricing-plans?authuser=0>) on understanding billing.

No-cost usage quotas apply at the project-level, not at the app-level or for individual resources.

## Blaze plan calculator

Use our pricing calculator to get an estimate for your monthly costs on the Blaze plan. Eligible developers can claim \$300 of credits (<https://firebase.blog/posts/2024/11/claim-300-to-get-started>) when they upgrade to the Blaze plan.

All unit costs are billed at the rate of the underlying Google Cloud infrastructure. (<https://cloud.google.com/pricing/?authuser=0>)

Projects are billed monthly

Cloud Firestore	GiB stored	 1 GiB about 20 M chat messages
	Document writes	 600,000 writes number of times data is written
	Document reads	 1,500,000 reads number of times data is read
	Document deletes	 600,000 deletes number of times data is deleted
Don't forget to factor in Egress costs! <a href="#">See Google Cloud pricing</a>		
Realtime Database	GB stored	 1 GB about 20 M chat messages
	GB transferred	 10 GB about 200 M chat messages
Phone Auth - All regions		Billed per SMS sent <a href="#">See current rates</a>
Authentication	Identity Platform Pricing	
	Monthly active users (excluding SAML/OIDC)	 50,000 MAUs Active users per month
	Monthly active users - SAML/OIDC	 50 MAUs Active users per month
Cloud Storage	GB stored	 5 GB about 2,500 high-res photos
	GB transferred	 30 GB about 15,000 high-res photos
	Operations (uploads & downloads)	 2,100,000 operations
